# Why Choose Christy?

- 40+ years of bathroom expertise
- Trusted, family-run Bedford business
- Honest advice and tidy, professional installations
- Transparent quotes – no hidden extras
- Personalised support from quote to completion

# Two Flexible Options to Suit Your Needs

To help you get started, we offer two distinct ways to move forward depending on your preferences and how far along you are in the planning process:

## 1. Free Site Survey – If You Know What You’re Looking For

If you already have a clear vision, a design/drawing, list of products and an idea of your budget, we’d be happy to carry out a free site survey. This includes taking accurate measurements and discussing practical details. If you do not have all this to hand, we recommend visiting one of our trusted local suppliers to explore available products:

**City Plumbing, Kempston – make an appointment with Stephen on 01234 846070**

**PlumbCity, Bedford - make an appointment with Nicola on 01234 327407**

**Topps Tiles**

**Elstow Ceramics**

**Just mention Christy Plumbing & Heating Ltd when visiting the showrooms.**

# Two Flexible Options to Suit Your Needs

## 2. Technical Consultation – If You'd Like Expert Guidance

If you just have a vague idea that you might like to get your bathroom remodelled and you're looking for technical/design support, layout ideas, or help choosing the right materials and finishes, as well spotting any pitfalls, we offer a dedicated consultation service at a flat rate of £90.00. This includes:

- A one-hour home visit to discuss your space, vision, and preferences
- Professional design advice tailored to your budget
- Help exploring design options, materials, and layout possibilities

Should you move forward with our full design and installation service, the £90 fee will be deducted from your final bill.

# Step-by-Step: Your Bathroom Journey

## 🔧 Step 1: Tell Us What You Want

Start by sharing your ideas and photos of what inspires you. We'll send you a simple form to capture your must-haves and your budget.

## 🏠 Step 2: Site Visit & Survey

A senior Christy installer will visit your home to assess what's possible, what's not, and offer honest, practical advice. If you need help visualising, we can refer you to our trusted local design partners.

# Step-by-Step: Your Bathroom Journey

## 🇺🇸 Step 3: Clear Quote & Go-Ahead

We'll send a detailed quote (not just a rough estimate). You can review it and let us know what needs adding or changing. Once approved, we'll assign your dedicated project manager.

## 👷 Step 4: Installation Begins

You'll get a clear start date. Our team will coordinate materials, waste removal, and specialist trades. All you need to do is clear the space and check your supplied items.

# Step-by-Step: Your Bathroom Journey

## ✦ Step 5: Enjoy Your New Bathroom

We finish up with care and attention to detail. If there's anything you're unsure about, just let your installer or support team know.

We're only happy when you are.

# **Real Stories From Happy Customers**

**“Christy Plumbing completely refurbished our ensuite and cloakroom, and the finish was excellent. We trust them fully and are already booking them for our main bathroom.”**

**– Mr R. Bishopp, Bedford**

**Want a bathroom you’ll  
love for years to come?**

**We’re ready when you are.**

## **FAQs**

### **How much does a new bathroom cost?**

Every job is different. We offer a free quote based on your requirements and budget. Finance options are also available.

### **Can I supply my own materials?**

Yes! You can supply everything, or we can take care of it all. Just make sure your items arrive on time and in good condition.

### **How long does it take?**

Typical projects take 1-2 weeks depending on the size and scope. We'll give you a realistic timeline during your quote.

### **What if something goes wrong?**

If you spot anything during or after the job, call us right away. We want it perfect, just like you do.
